EDUCATION

10th CBSE

12th HSC

Diploma In Information Technology

Dr. Ulhas Patil English Medium School, Bhusawal, **2022**

Mahatma Gandhi Vidyalaya & Jr. College, Varangaon, **2024**

Government Polytechnic Mumbai, **2026**

CERTIFICATIONS & WORKSHOPS

Defronix Certified Junior Security Practitioner

Drop Certified Security Course

Advitya, IIT Bombay Remark Skill Technical Workshop On Ethical Hacking

IIT Bombay Techfest 2025 Workshop On Ethical Hacking And Cyber Security

PROJECTS

1. SIEM Home Lab

Platforms and Technology Used: SIEM (Wazuh), Kali Linux, ParrotOS, VMs.

2. Building A Firewall

Platforms and Technology Used: pfSense, VMs, Realtek NICs, OpenVPN, NetFlow

3. CTF Style Lab

Platforms and Technology Used: Docker Compose, DVMA, MySQL, CTFd, Nginx

EXPERIENCE & INTER

Company: Nullclass

December 2025 - May 2026

Title: Cybersecurity Intern

- **Led a system hardening project using CIS-CAT Assessor, achieving a 43% compliance increase** by classifying vulnerabilities and implementing fixes against real-world threats (e.g., ransomware).
- **Executed a full-cycle medium-difficulty penetration test on HackTheBox**, utilizing Burp Suite and developing custom scripts for RCE and root privilege escalation.
- **Independently competed in an official CTF**, solving complex challenges across Web Exploitation, Cryptography, and Forensics.
- **Solved an insane-difficulty HackTheBox machine** by developing advanced custom exploits, including a WAF bypass for SSRF and a buffer overflow payload for root escalation.
- **Secured a Docker environment** by demonstrating a critical container escape vulnerability and enforcing hardening best practices (read-only filesystems, Least Privilege).
- **Simulated and defended against an Active Directory Kerberoasting attack**, applying blue team controls like AES encryption for verification.

Company: Redynox

February 2026 - March 2026

Title: Cybersecurity Intern

- Deployed and validated granular network security controls using UFW and Wireshark to confirm 100% rule enforcement.
- Manually exploited and documented critical web vulnerabilities (SQLi, XSS, CSRF) using OWASP ZAP and suggested mitigation steps.

Company: The Drop Organization

July 2025 - August 2025

Title: Cybersecurity Intern

- Conducted multi-stage web application penetration tests, successfully exploiting SQL Injection and XSS against OWASP Top 10 vulnerabilities.
- Executed comprehensive reconnaissance on a corporate domain, utilizing OSINT to map the attack surface and identify critical subdomains.
- Leveraged specialized tools (e.g., sqlmap, Burp Suite) to exploit vulnerabilities and document the entire attack chain with detailed remediation steps.

SKILLS

PowerShell Scripting, BASH Scripting, Firewall/NSG Configuration, Vulnerability Scanning.

TOOLS

Nmap, Burp Suite, Metasploit, Wireshark, Sqlmap, Beef XSS, Zenmap, Zaproxy.

TECHNOLOGIES

OWASP Top 10, Kali Linux, Parrot Os Toolset, Wazuh, Microsoft Sentinel, Microsoft Defender For Endpoint, pfSense, OpenVPN.
